Thirty-eighth International Conference

Tarragona, Spain (online)

Monday, June 28 – Friday, July 2, 2021

Conference organizers and hosts in Tarragona: Emili Samper and Carme Oriol
President and technical host: Theo Meder (Amsterdam)

Due to the fact that we are scattered all over the globe, the conference will take place between **16.00 and circa 21.00 hours CEST** (Central European Summer Time).

On a global timetable this means sessions will start:

- US/Canada West coast: 07.00 (7:00 am)
- US/Canada East coast: 10.00
- UK: 15.00
- Central Europe: 16.00
- Russia (Moscow time): 17.00
- Asia (Taipei, Taiwan time): 22.00

Every day it will be possible to log in early (**one hour in advance**) in order to test your Zoom connection or your Powerpoint presentation. At the end of each day, we will also leave the connection open an hour longer just in case there has been some delay.

Each day will have a new Zoom link and password (there will be no waiting room, so you can step right in).

People can (repeatedly) open and close their connection at their convenience between the given hours.

Only people who paid their registration fees (see attached form) will receive these links, which will be sent the week before the conference. Please do not share them. And please note that the **registration deadline is 15 June**.

The full program will also be sent before the conference.

All presentations and discussions will be recorded and can be (re)watched on a later date by those who paid the full registration fees. The links and passwords for the recordings will be sent after the conference.

Note to all participants: we would very much like to see you, so please enable your camera if possible. On the other hand, when you are not presenting a paper or participating in the discussion, please mute your microphone (to prevent unwanted acoustic noise).

Presenters, you will be able to share your screen, give a powerpoint presentation, play audio or show a video. Please make sure you know how to do this before you begin your presentation. You can test the system during the first hour each day (15.00 - 16.00 CEST).
