

| 21 SEPTEMBER 2022 |                                       |  |                             |                                 |  |             |                                 |   |
|-------------------|---------------------------------------|--|-----------------------------|---------------------------------|--|-------------|---------------------------------|---|
| PANEL             | ABSTRACT TITLE                        |  | PANEL                       | ABSTRACT TITLE                  |  | PANEL       | ABSTRACT TITLE                  |   |
| 15.00-16.15       | PARALLEL SESSIONS 1.1. ROOM 303       | Climate change related liability claims. Is Spain different? - Ruda González, Albert   | 15.00-16.15                 | 1.2. CIRCULAR ECONOMY ROOM 304  | The legal challenges surrounding plastic waste - De la Varga Pastor, Altana  | 15.00-16.15 | PARALLEL SESSIONS 1.3. ROOM 305 | Reading scientific evidentiary requirements into nature legislation- Jennings, Rhoda  |
|                   |                                       | Intergenerational justice in climate litigation - Baulonova, Eva   |                             |                                 | Climate Change: Waste Matters - Snopková, Tereza   |             |                                 | When WHO guidelines meet Environmental Law: Influence and synergies - Misonne, Delphine & Bertaux, Camille  |
|                   |                                       | The right to a stable climate - a new subjective right or an immanent premise of the right to life? - Stoczkiewicz, Marcin   |                             |                                 | Is ECT a just mechanism to prevent plastic pollution? - Reins, Leonie & Coccio, Endrius  |             |                                 | The role of multidisciplinary in the development of environmental law: lessons from biochar research - Cavallin, Elisa  |
|                   |                                       |  |                             |                                 | Identifying Recovery of Non-Renewable Resources from Waste in the Transition to a Circular Agri-Food System - Kaji, Mitsuji  |             |                                 | The ecological minimum: where science meets the law - Vidal Sampaio, Margarida  |
|                   | Chair: Daniel Iglesias                |  |                             | Chair: Carl Dalhammer           |  |             | Chair: Matteo Fermiglia         |   |
| COFFEE BREAK      |                                       |  |                             |                                 |  |             |                                 |   |
| 16.45- 18.00      | PARALLEL SESSIONS 2.1. ROOM 303       | Framing of the complex environmental issue in the context of political crisis and social group narratives. The case of Vistula Spit area, Goldźwicz-Biechowska, Justyna & Brezinska-Rawa, Anna               | 16.45-18.00                 | PARALLEL SESSIONS 2.2. ROOM 304 | Climate action legislation – A German perspective with a focus on the conflict between best available scientific evidence and constitutional requirements - Kohlfrausch, Kena                                  | 16.45-18.00 | PARALLEL SESSIONS 2.3. ROOM 305 | Surprised by similarity – Comparing the Chinese and European regulatory efforts addressing industrial water emissions - Yuan, Li & Palomittu, Tina  |
|                   |                                       | Religion and Environmental Protection: An Interplay of Conflicting Interests - Ugiwu, Ikechukwu  |                             |                                 | Rethinking International Environmental Law in Times of Eroding Consent: A European Perspective - Markus, Till  |             |                                 | Permissibility and limits of different levels of enforcement in the implementation of the Water Framework Directive - Wertmann, Lena  |
|                   |                                       | The interplay between climate change and energy poverty from an ecofeminist perspective - Ascencio-Serrato, Stephanie  |                             |                                 | Earth System Law to rethink environmental law? - Kalls, Michael  |             |                                 | Water sustainability transformations in global business – promoting corporate water stewardship through law - Puharinen, Sivi-Tuuli   |
|                   |                                       |  |                             |                                 | Comparative Analysis of the Air Pollution Regulatory Regime in UK and Kosovo from an Evidence Based Perspective - Cindrak, Rina; Ginge, Tilak & Green, Iain  |             |                                 | Climate adaptation, coastal flooding and biodiversity protection – do we need a more dynamic approach in EU nature protection law? - Tegner Anker, Helle  |
|                   | Chair: Jordi Jaria                    |  | Chair: Alba Nogueira        |                                 | Chair: Marouane Laabas el Guennoui   |             |                                 |   |
| 22 SEPTEMBER 2022 |                                       |  |                             |                                 |  |             |                                 |   |
| 9.15-10.30        | PARALLEL SESSIONS 3.1. SALA DE VISTES | REPowerEU: A harsh rethink of European Energy Transition Law and Policy - Iliopoulos, Theodoros  | 9.15-10.30                  | PARALLEL SESSIONS 3.2. ROOM 307 | Environmental and social costs of the European Green Deal and what environmental and labour law can do about them - Bogojevic, Sanja & Arabadjeva, Kalina  | 9.15-10.30  | PARALLEL SESSIONS 3.3. ROOM 311 | Internal harmonisation of environmental law: does it matter? - Vanhelmont, Anna   |
|                   |                                       | Climate, Energy and... Environment? Integration of the Laws of Environmental Protection within EU Renewable Energy Share Targets - Hardman, Alison   |                             |                                 | Environmental administration between police law and regulatory law - Iwanczik, Fabian  |             |                                 | Case study: defending European cultural heritage - Kalemegdan fortress in Belgrade - Rajić, Jovan   |
|                   |                                       | EU air quality and vehicles: an incompatible pair? - Vodicka, Jiri   |                             |                                 | Changes of circumstances and power purchase agreements: a contract law issue with climate consequences - Vial Fourcade, Gonzalo  |             |                                 | Intercontinental shipping in the EU ETS: A "Fifty-Fifty" alignment with the Law of the Sea and International Climate Law? - Kozmaspaskis, Manolis   |
|                   |                                       | How can disciplinary convergence between EU Climate & Energy Law contribute to EU's transformative agenda? Kaisa Huhta & Seita Romppanen   |                             |                                 | A problem-based approach to Environmental Law - Schöning, Lena   |             |                                 | Legal challenges for reducing CO2 emissions from Dutch peatlands - van Gils, Martijn  |
|                   | Chair: Coccio, Endrius                |  | Chair: Moritz Reese         |                                 | Chair: Stephanie Ascencio  |             |                                 |   |
| COFFEE BREAK      |                                       |  |                             |                                 |  |             |                                 |   |
| 11.00-12.15       | PARALLEL SESSIONS 4.1. SALA DE VISTES | Can Citizen's Climate Assemblies improve environmental-law making? An analysis in terms of deliberative and participatory democracy - Esteve Jordá, Clara  | 11.00-12.15                 | PARALLEL SESSIONS 4.2. ROOM 307 | I've heard the mermaids singing... distributive justice in the relation between humans and non-humans- Stšrc-Meckljan, Filipina  | 11.00-12.15 | PARALLEL SESSIONS 4.3. ROOM 311 | Sustainability considerations in Urban Planning Law – examples, obstacles, and potential from a Danish perspective - Sørensen Greve, Mia Celine   |
|                   |                                       | Democracy and judiciary in the environmental crisis. A critical relation - Reese, Moritz   |                             |                                 | Animal welfare and animal conservation law: a conflict within environmental law - Platvoet, Veerle   |             |                                 | The implications of Environmental Integration in the implementation of the Brazilian National Policy on Climate Change - Ferrero Giuratta, Andre Augusto  |
|                   |                                       | European Citizens' Initiative (ECI) and the way towards a better EU environmental policymaking – The case of the "Right2Water" and "Ban Glyphosate" ECIs - Poukili, Kleoniki and Tsakalgianni,               |                             |                                 | Use the tool's force by calling a spade a spade: Rights of Nature in the EU - Zenetti, Julia   |             |                                 | The life cycle of real estate: Sustainability requirements for construction and housing - Krümpelmann, Louisa & Cajs, Ervis & van, Elise  |
|                   |                                       | Towards a new legal framework for public participation? Ideas for reconciling Law and Practice - Squitanti, Lorenzo  |                             |                                 | Reading scientific evidentiary requirements into nature legislation - Jennings, Rhoda  |             |                                 | EU Green Economy and the Taxonomy Regulation. Recognising sustainable investment as a way to avoid green-washing. Alba Forns Gómez  |
|                   | Chair: Victor Merino                  |  | Chair: Maria Marques        |                                 | Chair: Stephanie Ascencio  |             |                                 |   |
| 12.15-13.30       | PARALLEL SESSIONS 5.1. SALA DE VISTES | Sustainability of Green Energy Production – Case Study of Pecém (Brazil) - Queiroz de Menezes, Lúcia; Pellow, Lenette & Ginge, Tilak   | 12.15-13.30                 | PARALLEL SESSIONS 5.2. ROOM 307 | "Old" national permits versus "new" EU restoration & liability duties for environmental impacts: an overview & a case study on Swedish fiber banks - Mauerhofer, Volker & Haller Henrik                        | 12.15-13.30 | PARALLEL SESSIONS 5.3. ROOM 311 | The Cloud above the Field: big data predictive tools for sustainable EU agriculture - Reins, Leonie & Luyckx, Margot  |
|                   |                                       | How just is the European just Transition? On justice, participation and the role of law in the climate crisis - Armeni, Chiara   |                             |                                 | Environmental Noise Directive on the road to success? - Althegeger, Ronja  |             |                                 | The role of regulatory climate impact assessments in climate policy integration - Leskinen, Paula   |
|                   |                                       | What role for the precautionary principle in climate engineering? - Millerová, Hana  |                             |                                 | Connectivity and intersections on example the Environmental Liability Directive: should we rethink liability in environmental law? - Baran, Mariusz  |             |                                 | The Polluter Pays Principle at the CJEU: Economic Theory and judicial interpretation - Mukherjee, Sroyon  |
|                   |                                       | The Green versus Green Dilemma - Egelund Olsen, Birgitte   |                             |                                 | Ecotaxation: From consumption Hallmark to environmental tool - Bento, Francisca  |             |                                 | Acid Clouds and Silver Linings: Lessons to be Learned from the Alkali Administration - McMullen, Joseph, McKeown, Sarah, Green, Iain & Ginge, Tilak   |
|                   | Chair: Alex Moreno                    |  | Chair: Alois López          |                                 | Chair: Clara Esteve  |             |                                 |   |
| LUNCH             |                                       |  |                             |                                 |  |             |                                 |   |
| 15.00-16.15       | PARALLEL SESSIONS 6.1. SALA DE VISTES | Connectivity and conflicts in transitional waters regime – towards Emerald Justice concept - Nyka, Maciej  | 15.00-16.15                 | PARALLEL SESSIONS 6.1. ROOM 307 | The demand for a German Agriculture Act as a framework law for sustainable and environmentally sound agriculture - Koeck, Wolfgang   | 15.00-16.15 | PARALLEL SESSIONS 6.3. ROOM 310 | Forging a double-edged sword: The role of foreign investor's due diligence to reconcile EU's foreign investment Protection and Climate Policies - Fermiglia, Matteo                                 |
|                   |                                       | The role of river basin organisations in the application of the principle of integration - Pallás Secall, Pol  |                             |                                 | How EU Regulations address transnational investments in agricultural land - Schatz, Eva-Maria  |             |                                 | Greening the Euro? The impact of the environmental integration clause (Art. 11 TFEU) on the European Central Bank's (ECB) primary and secondary objectives - Callies, Christian; Tuncel, Ebru       |
|                   |                                       | Freshwater management in the age of climate adaptation and circularity. The paradox of innovation and the law - Melchers, Sophie   |                             |                                 | Complexities and Untapped Capacity: Assessing the feasibility of operationalizing the Water Energy and Food Nexus through existing legal frameworks – a case study of Cape Town- Aneoka Buijze & Nicola Harvey |             |                                 | The EU Carbon Border Adjustment Mechanism (CBAM) – Managing an integrated trajectory of Environmental and Trade Law towards climate neutrality in a broader geopolitical context - Zhang, Meng      |
|                   |                                       | The establishment of a European agency on water? A policy suggestion - Quintavalla, Alberto  |                             |                                 | A Comparative Analysis of Invasive Alien Species Border Control Measures in China and the EU - Xu, Yain  |             |                                 | Biodiversity Protection in Transnational Value Chains - Glinski, Carola   |
|                   | Chair: Altana de la Varga             |  | Chair: Theodoros Iliopoulos |                                 | Chair: Tina Palomittu  |             |                                 |   |
| 16.15-17.30       | PARALLEL SESSIONS 7.1. SALA DE VISTES | Depicting Rubin's Vase or Faces: Clarifying the Practical Value of Integrated Water Resource Management - Xu, Tong   | 16.15-17.30                 | PARALLEL SESSIONS 7.2. ROOM 307 | Rethinking Remedies for Environmental Harm - Leucci, Francesca & Faure, Michel   | 16.15-17.30 | PARALLEL SESSIONS 7.3. ROOM 310 | Understanding the reality of online intimidation: a legal and empirical analysis of online intimidation tactics used against environmental defenders with the aim of silencing them. - Stolle, Lien |
|                   |                                       | The legal status of novel water circulation technologies in the light of environmental permitting processes - Ala-Lahdi, Tellervo  |                             |                                 | Evaluation of the Recast EU Environmental Crime Directive (Proposal): Fit for Purpose? - Pereira, Ricardo  |             |                                 | Access to information, climate change, and the EU: A formidable combination? - Palomittu, Tina  |
|                   |                                       | A Case Study of Access to Water in South Africa as an Evaluation of the Effectiveness of Key Principles in Environmental Justice and Sustainable Development - Oiley, Jack; Ginge, Tilak & Cvitanovic, Marin |                             |                                 | Deforestation and Criminal Law: evaluation of the EU proposal for a Regulation on deforestation-free products and the EU proposal for a new Environmental Crime Directive - Marqués-Banquet, María             |             |                                 | Where law on consumption and access to environmental information meet - Oliveira, Heloisa   |
|                   |                                       | Legal aspects of water allocation in times of water scarcity and droughts in the context of water resource management - Tickeremann, Felix   |                             |                                 | Are poor people also eco-victims in the city of Barcelona? - Ruiz Arias, Miriam & López-Martínez, Alexandra  |             |                                 |   |
|                   | Chair: Lorenzo Squitanti              |  | Chair: Clara Esteve         |                                 | Chair: Daniel Iglesias   |             |                                 |   |
| 23 SEPTEMBER 2022 |                                       |  |                             |                                 |  |             |                                 |   |
